

# About Us

At Dilworth Homes, our journey in custom home building runs deep throughout the hearty rock of Dilworth Mountain and the rich soil of the Okanagan Valley.

Over the past 35 years, we've worked with the natural landscape to create homes that befit the land that they are a part of, and our commitment to building quality, fostering innovation and bringing the vision of our clients to life has always been at the forefront of what we do.

By sharing the journey with our clients and honoring their dreams, we deliver spectacular homes that they love to live in, longer.

## Vision

Since our beginning in 1989, Dilworth Homes has been the hallmark for innovative, client-focused design, quality construction and community-minded relationships with our homeowners, trade partners and extended team.

As hillside specialists, we see opportunity in the land and have the experience to design and build custom homes that complement the natural landscape and bring our clients' vision to life.

Here, we understand that it's not only what we build, but how we build that makes the difference and our "your home, your way" philosophy ensures that our homes are the perfect fit today, and for many years to come.
